PRIYANSHU KUMARI PASWAN

FULL-STACK AND AI DEVELOPER

priyankp2504@gmail.com | Navi Mumbai, Maharashtra, India | www.linkedin.com/in/priyanshu-k-paswan-29hp03

CAREER SUMMARY

Computer Science graduate with hands-on experience in Python and full-stack development (MERN), and practical exposure to machine learning through an AI exam-proctoring pipeline. Seeking a Software Developer role to build reliable, real-world applications.

EDUCATION

Bachelor's degree | Sha-Shib College of Technology, RGPV 2022-2026
B.Tech, Computer Science and Engineering
Bhopal, Madhya Pradesh

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML, CSS, MATLAB, Batch Scripting
Data & Analytics: Pandas, NumPy, Excel, Data Cleaning, Data Preprocessing, Data Transformation, Data Analysis
AI/ML: Scikit-learn, Machine Learning, Feature Engineering, Classification, Random Forest, Model Evaluation
Development: Frontend Development, Backend Development, REST APIs, API Integration, MERN Stack
Visualization & Tools: Matplotlib, Jupyter Notebook, Git, GitHub, VS Code
Database: SQL, Database Management

WORK EXPERIENCE

AI with Python Intern — IStudio | Remote **June 2026 – Aug 2026**
- Developed AI/ML solutions using Python and Jupyter Notebook.
- Performed data preprocessing, feature engineering, model training, and evaluation using Pandas, NumPy, Matplotlib, and Scikit-learn.
- Built and evaluated machine-learning classification models using structured datasets.

MERN Stack Developer Apprentice — SN Mastermind Pvt. Ltd. | Remote **Sept 2025 – Aug 2026**
- Worked with MERN Stack, Python, SQL, and Data Analytics to build full-stack and data-driven solutions.
- Developed web applications using MongoDB, Express.js, React.js, and Node.js, including frontend and backend functionality.
- Performed data analysis, cleaning, transformation, and visualization using Python, Pandas, SQL, and Excel.
- Worked with REST APIs, databases, and data integration to connect application and analytical workflows.

CRM Executive — Hallmark Honda | Navi Mumbai **May 2025 – Aug 2025**
- Managed customer relationships, lead follow-ups, and customer communication.
- Maintained accurate customer and CRM records while supporting engagement activities.
- Coordinated with internal teams to address customer requirements and ensure timely follow-ups.

CERTIFICATION AND ACHIEVEMENTS

PYTHON | IAST | Bhopal, Madhya Pradesh 27 Aug 2024 – 07 Sept 2024
JAVA | IAST | Bhopal, Madhya Pradesh 29 April 2024 – 11 May 2024
IOT | IAST | Bhopal, Madhya Pradesh 03 Jan 2024 – 13 Jan 2024
MATLAB | IAST | Bhopal, Madhya Pradesh 07 July 2025 – 19 July 2025
MERN Stack Developer Apprentice — SN Mastermind Sep 2025 – Aug 2026
Data Analyst Apprentice — SN Mastermind Sep 2025 – Aug 2026

PROJECTS

AI Exam Proctoring & Suspicious Behaviour Detection
- Built an end-to-end time-series classification pipeline in Python that detects genuine suspicious behavior during online examinations while minimizing false accusations.
- Aligned asynchronous video telemetry and system-event data through time-based merging in Pandas; handled missing sensor data with interpolation and forward-filling.
- Engineered rolling-window features to reduce short-duration behavioral noise; handled class imbalance and tuned a probability-based decision threshold prioritizing precision.
- Evaluated the model with a Matplotlib Precision-Recall curve; full workflow implemented in Jupyter Notebook.

Technologies: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Machine Learning, Feature Engineering, Jupyter Notebook

Student Attendance Management System (Major Project)
- Built a biometric attendance management application using fingerprint authentication with Python and database integration.
- Automated attendance tracking and report generation, helping reduce proxy attendance.

Technologies: Python, Fingerprint Authentication, Database Integration, Automation, Report Generation

Automated Business Management Dashboard (Minor Project)
- Developed a Tkinter-based desktop application to manage car sales, rentals, and repairs.
- Implemented Excel data handling, login authentication, and analytics dashboards using Matplotlib.

Technologies: Python, Tkinter, Excel, Matplotlib, Data Visualization, SQL

Gramin Bank — Banking Data Analytics
- Analyzed banking and customer data to identify customer patterns, business trends, and key performance indicators.
- Transformed raw data into meaningful business insights through structured analytical workflows.

Technologies: Python, SQL, Pandas, Excel, Data Analysis

Hospital Management System
- Developed a management application for organizing patient, doctor, appointment, and hospital records.
- Implemented structured data handling and application workflows to support hospital management operations.

Technologies: Python, Database Management, Application Workflows

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the information presented in this resume.

Place: Navi Mumbai, Maharashtra
